PROJECTS

1. **College Bus Tracking System:** An Android app with student, parent, and teacher modules, featuring real-time bus tracking, absence notifications, and fee payments, showcasing your skills in building user-friendly apps with real-time updates.

2. **E-commerce Site (Django):** A full-featured Django web app with product listings, shopping cart, user authentication, and payment integration, highlighting your ability to create comprehensive e-commerce platforms.

3. **Movie Listing Project:** A Django app with full CRUD functionality, enabling users to manage movie entries by creating, viewing, updating, and deleting them, demonstrating your skills in dynamic content management.

4. **Boutique Project:** A Django project for my boutique, likely focused on product management, order tracking, and customer interactions, showcasing your ability to create business-specific web applications.

INTERNSHIP

Interned in Python-Django at Emdeon Digital Services Private Limited, Kochi, focusing on essential CRUD operations and collaborative project work. Gained hands-on experience in Django application development and teamwork in a dynamic environment.
